Introduction;

Health and wellness refer to the overall well-being of an individual, including physical, mental, emotional, and social aspect of life.

Health is not merely the absence of disease but a state of complete physical, mental and social well-being. wellness emphasizes a balanced life style that promotes healthy habits such as proper nutrition, regular physical activity, adequate rest, and positive mental health practices.

In today's fast-paced life, maintaining health and wellness is essential for improve quality of life, enhancing productivity, and preventing life style-related diseases.

Objectives

- To develop health awareness.
- to help student-teacher understand the importance of physical, mental, emotional, and social health.
- To promote healthy life style habits.
to encourage balanced diet, regular exercise, proper sleep, and personal hygiene among learners.
- to develop mental and emotional well-being
to enable student-teachers to manage stress, emotions, and develop a positive attitude towards life.
- to develop life skills.
to enhance decision-making, problem-solving, communication and coping skills.

Personal Wellness Plan.

4.

Details of Daily/ weekly Activities

ii) Personal wellness plan :-

A personal wellness plan is a structural approach to maintain one's overall health.

As a B.Ed teacher-student, maintaining personal wellness is essential to remain active, stress-free, and productive.

A) Food :-

Food plays a vital role in maintaining physical health, energies, and immunity.

In my personal wellness plan, I followed a balanced diet consisting of essential nutrients such as carbohydrates, proteins, fats, vitamins, and minerals.

Daily Activity:-

- I started my day with a healthy breakfast including milk, fruits, Poha, upma or idli.
- In lunch I include chapati, ~~live~~ vegetables, dal, salad and curd.
- Dinner was light and taken before 8pm.

Weekly activities

- I prepared a weekly plan to ensure variety and nutrition.
- Seasonal fruits and vegetable were included.
- Outside food consumption was restricted.
- One specific day was planned for nutritious home made special meals.

B) Sleep

- Adequate sleep is necessary for physical ~~restoration~~ and mental ~~freshness~~.

Daily Activities

- I slept for 7-8 hours every night
- I followed a fixed sleeping and waking ~~time~~
- I practiced relaxation techniques like deep breathing before bedtime

Weekly Activities

- I ensured complete rest on weekends.
- I avoid ~~late~~ late-night activities.
- I maintained calm and clean sleeping environment.

Surya Namaskara

Practice 2-24 rounds every morning to prepare mind and body for the day ahead

C) Exercise

→ Regular physical activity is essential to maintain strength, flexibility, and daily routine.

Daily Activities:-

30 min of walking, yoga or stretching exercises.

Weekly Activities.

→ Yoga sessions focusing on posture, breathing and flexibility.

→ light stretching exercises for relaxation.

D\> Digital use

- In the modern era, digital devices are ~~necessary~~ but excessive. we can harm physical and mental health.

Daily activity :-

- Limited screen time for mobile phones and laptops.
- Avoided unnecessary scrolling on social ~~media~~.

weekly activities.

- Practised digital detox for a few hours.
- Used digital mainly for academic and educational purposes.
- Reduced screen exposure during weekends.

I am magic.

E) Emotional well-being

Emotional well-being is essential for maintaining a positive attitude and mental balance.

Emotional health helps in managing stress, relationships and daily challenges.

• Daily Activities

- Practiced positive thinking and self-reflection.
- Meditation and deep breathing exercises.
- Managed time effectively to reduce stress.

• Weekly Activities:-

- shared feelings and experiences with family and friends.
- Practiced gratitude and mindfulness.
- Engaged in hobbies such as reading, music, or creative activities.

Guest Lecture / Expert Talk

The guest invited for the expert talk was Prof. Eden Lobo.

He is a knowledgeable and experienced person in the field of health and wellness. He has a deep understanding of physical fitness, nutrition, mental health, and healthy life style practices.

During the session, he shared his practical experiences and guided students about maintaining a balanced diet, regular exercise, proper sleep, and emotional well-being.

He also explained the importance of stress management, positive thinking, and self-discipline in daily-life.

In addition to physical health, Prof. Eden Lobo focused on mental and emotional well-being.

He explained the causes of stress among students and suggested simple stress management techniques, like meditation.

My Participation:-

I actively participated in all the activities conducted as a part of health and wellness programme.

I sincerely participated in and followed daily and weekly habits, regular exercise, proper sleep, controlled digital use, and emotional and well-being activities.

I participated in posters making activity displaying the ideas, theme, design, explaining the message to others. I also attended lecture and participated in active interaction.

These activities helped me gain practical experience and enhanced my awareness about health and wellness.

Reflection on Activities:-

The poster making and exhibition activity conducted during the course were very meaningful and informative.

It also enhanced my activity and helped me convey health-related effectively.

The guest lecturer provided me physical knowledge and motivated me to adopt healthy habits in life.

Overall, these activities helped in my personal growth, improved, self-discipline, reduced stress, and developed a positive attitude.

Changes in me from these activities;

The health and wellness activities brought positive changes in my lifestyle and attitude.

I became more conscious ~~acti~~ about my food habits, lifestyle and attitude.

Improved my concentration, emotional well-being activities such as meditation and positive thinking helped me manage stress and remain calm in difficult situation.

Overall, these activities developed self discipline, confidence and positive outlook.

As a future teacher, these changes will help me act as a role model and promote healthy habits among students.

Recommendations for integration in School

Education:-

- Health and wellness education should be included as a compulsory part of the school curriculum.
- Daily physical activities such as yoga, exercise and games should be conducted in schools.
- Digital wellness act as role models by following healthy life-style.
- Parents should be involved through workshops and awareness sessions.

Evidences participation in activities :-

- Photographs of participation in ~~daily and weekly~~ wellness activities.
- Attendance records of guest lecture/expert talk.
- wellness integration lesson plan prepared by me.
- Reflection and self-assessment reports.
- certificates or acknowledgements.

Education Implication

Health and wellness education plays an important role in overall development of students.

It helps students develop healthy habits related to food, exercise, sleep, and personal hygiene.

It also creates a positive and supportive learning environment for teachers, health and wellness education providers. Opportunity to act as role models and guide students towards a balanced, healthy, and responsible lifestyle.
